

PRINCE2® Practitioner Training with Foundation and Practitioner Examinations

PRINCE, which stands for **PR**ojects **IN** **C**ontrolled **E**nvironments, is a project management method covering the organisation, management and control of projects. It is a process-based approach for project management providing an easily tailored and scalable method for the management of all types of projects. Each process is defined with its key inputs and outputs together with the specific objective to be achieved and activities to be carried out.

PRINCE2 is a structured method providing organisations with a standard approach to the management of projects. The method embodies proven and established best-practice in project management. It is widely recognised and understood, and so provides a common language for all participants in the projects.

PRINCE2 provides benefits to the organisation, as well as the managers and directors of the project, through the controllable use of resources and the ability to manage business and project risk more effectively.

Overview: This highly interactive course will be based upon the 2009 refresh version of PRINCE2 and will cover principles, Processes and themes that comprise the methodology. The course will also cover the appropriate application of PRINCE2 in different size of projects and the embedding of PRINCE2.

Delivery Classroom Presentation, slides, video, case studies, discussion, role play, sample exam papers, juggling

Our Presenters: All FPMS PRINCE2 presenters are experienced Program and Project Managers who are accredited by the APMG as both PRINCE2 Trainers and Consultants; they are Buzan licensed Mind Mapping instructors with Certificate IV in Workplace Assessment and Training. Our PMI approved skilful team bring alive the methodology with their real life applications and lessons learned while successfully guiding groups and organisations through the implementation of the methodology and the cultural change.

Delegate Profile: Those who will benefit from attending this course will include all project team members who will undertake the project on a day-to-day basis; Project Managers, Team Managers and support personnel. A working knowledge of project management principals is assumed. Delegates are required to successfully complete the Foundation Examination before being eligible to sit for the Practitioner examination.
